

In the Claims:

1. (Currently Amended) A repetitive language kit comprising;

a plurality of pages having binder and outer edges, each one of said plurality of pages related to a common theme;

a photographic site proximate ~~the~~ a surface of at least one of said pages configured to receive a pictorial representation;

a caption site proximate the surface of at least one of said pages and corresponding to said photographic site, said caption site ~~configure~~ configured to receive text which is repetitive throughout the pages; and

a binder for securing selected ones of said plurality of pages proximate said binder edges to assemble a repetitive language book from said repetitive language kit, said selected ones of said plurality of pages in said assembled repetitive language book relating to experiences of a pre-reader.
2. (Original) The repetitive language kit of claim 1 wherein said caption site is configured to receive personalized text corresponding to the pictorial representation of said corresponding photographic site.
3. (Original) The repetitive language kit of claim 1 wherein said binder is selected from the group consisting of lace, ribbon, string and yarn.

4. (Original) The repetitive language kit of claim 3 wherein said caption site is configured to receive personalized text corresponding to the pictorial representation of said corresponding photographic site.
5. (Original) The repetitive language kit of claim 3 wherein said pages have at least one perforation proximate said binder edges for receiving said binder.
6. (Original) The repetitive language kit of claim 5 wherein said photographic site and said corresponding caption site are proximate facing pages when the book is open to said facing pages.
7. (Original) The repetitive language kit of claim 5 wherein said photographic site and said corresponding caption site are proximate the same page.
8. (Original) The repetitive language kit of claim 5 wherein said pages further comprise front and back covers.
9. (Original) The repetitive language kit of claim 1 wherein each of said pages has two substantially parallel binder edges and a fold line between binder edges for folding said page to form a receptacle.

10. (Original) The repetitive language kit of claim 9 further comprising:

a border delineated by a cut away portion of said photographic site, wherein said receptacle is configured to receive a pictorial representation for viewing through said border.

11. (Original) The repetitive language kit of claim 10 further comprising:

a plurality of cards having printed thereon repetitive text corresponding to the repetitive text of said caption site of said pages; and

a container for storing said pages, binder and cards, said container having printed thereon a title corresponding to the repetitive text of said caption site of said pages and configured for receiving personalized text.

12. (Currently Amended) A repetitive language book comprising:

a plurality of pages having binder and outer edges;

a photographic site proximate ~~the~~ a surface of at least one of said pages configured to received a pictorial representation;

a caption site proximate the surface of at least one of said pages and corresponding to said photographic site, said caption site ~~configured to receive text which is repetitive throughout the pages, said caption site having text imprinted thereon;~~ and

a binder which secures said plurality of pages proximate said binder edges;

wherein said text imprinted within said caption site is repetitive text selected to facilitate teaching of reading to a pre-reader.

13. (Original) The repetitive language book of claim 12 wherein said caption site is configured to receive personalized text corresponding to the pictorial representation of said corresponding photographic site.

14. (Original) The repetitive language book of claim 13 wherein said binder is selected from the group consisting of lace, ribbon, string and yarn.

15. (Original) The repetitive language book of claim 14 wherein said pages have at least one perforation proximate said binder edges for receiving said binder, said binder is threaded through said perforations of said pages to form a loop proximate said perforations, the ends of said binder are threaded through said loop and secured together for binding said pages along said binder edges for movement throughout an arc.

16. (Currently Amended) The repetitive language book of claim 15 further comprising:

pictorial representations proximate said photographic sites; and

personalized text proximate said caption site;

wherein said personalized text is personalized repetitive text selected to facilitate teaching of reading to said pre-reader.

17. (Currently Amended) A process for facilitating the reading skills of a pre-reader comprising the steps of :

providing a repetitive language kit comprising:

a plurality of pages having binder and outer edges;

a photographic site proximate ~~the~~ a surface of at least one of said pages configured to receive a pictorial representation;

a caption site proximate the surface of at least one of said pages and corresponding to said photographic site, said caption site ~~configure~~ configured to receive text which is repetitive throughout the pages; and

a binder for securing said plurality of pages proximate said binder edges;

memorializing an experience of the pre-reader through pictorial representations;

selecting, from said plurality of pages, pages suitable for memorialization of said experience;

affixing said pictorial representations proximate said photographic site of said selected pages;

personalizing said pictorial representations with text proximate said caption site;

and

binding said selected pages with said binder.

18. (Original) The process for facilitating the reading skills of a pre-reader of claim 17 wherein said binder is selected from the group consisting of lace, ribbon, string and yarn.

19. (Original) The process for facilitating the reading skills of a pre-reader of claim 18 wherein said pages further comprise front and back covers for securing said pages therebetween and said covers and pages have at least one perforation proximate said binder edges for receiving said binder, said binder is threaded through said perforations of said back cover, pages and front cover to form a plurality of loops proximate said front cover perforations, the ends of said binder are threaded through said loops for securing together.

20. (Original) The process for facilitating the reading skills of a pre-reader of claim 19 further comprising the step of reading said pages to the pre-reader.

21. (New) The repetitive language kit of claim 1, wherein said caption site has text imprinted thereon and wherein said text imprinted within said caption site is repetitive text selected to facilitate teaching of reading to said pre-reader.

22. (New) The repetitive language kit of claim 2 wherein said caption has personalized text imprinted thereon and wherein said personalized text is personalized repetitive text selected to facilitate teaching of reading to said pre-reader.

23. (New) The process for facilitating the reading skills of a pre-reader of claim 17 wherein said caption site has text imprinted thereon and wherein said text imprinted within said caption site is repetitive text selected to facilitate teaching of reading to said pre-reader.

24. (New) The process for facilitating the reading skills of a pre-reader of claim 21 wherein said personalized text is personalized repetitive text selected to facilitate teaching of reading to the pre-reader.
